

Accredited Broiler Research Summary

A meta-analysis of replicated accredited AZOMITE® broiler chicken research by Dr. Danny Hooge appeared in the January 21, 2008 issue of Feedstuffs Weekly, *Newspaper for Agribusiness*. His meta-analysis lists the scientific studies and their reported results for 26 comparisons of birds with AZOMITE® added to their diets vs. control birds with no AZOMITE® added. A summary of his findings is set forth below.

Accredited Broiler Research	Control	AZOMITE®	Gain	% Change	P Value
Average feed conversion	1.964	1.913	0.051	2.60%	0.002
Average size (kilos)	2.188	2.215	0.027	1.23%	0.001
Average mortality	9.61%	7.62%	1.99%	20.7%	0.014
Average dry yield	66.99%	67.29%	0.30%	0.44%	0.011
Average breast yield	19.58%	20.21%	0.63%	3.22%	0.001
